

Are you nervous about a client?
Has a client emailed you with comments of a suicidal nature?
Do you have a client in the office that needs to be taken to the hospital?

Call the Community Response Team!
(They are specially trained in mental health care!)

Call 303-633-6100 for nonemergencies.
Call 911 in an emergency (but you can also request a CRT if they're available).

(If the person has Medicaid or Kaiser, they have to go to the ER and the CRT cannot
direct place them at a hospital.)

For elderly/dementia/hitting – call Adult Protective Services
